Who is Space Concepts?

Spaces Concepts is a company that offers Engineering Construction and Construction Project management.

Space Concepts is dedicated to organizations or Individuals seeking construction services.

We are committed to providing the best possible construction expertise & service to ensure cost effective and successful projects.

We work closely with our clients to accurately interpret their dreams/visions in drawings and bring them to the desired reality through construction solutions to meet their needs; We communicate with our clients throughout the construction process to keep them informed of progress and to ensure that our project keeps on schedule and within budget.

**We
Believe
in and
Promote
Quality
Delivery**

Our Vision

A regional market leader in provision of civil engineering and building construction services

Our Mission

We aim to be a world class engineering Construction Company providing efficient affordable, sustainable, cost effective services of highest level of quality.

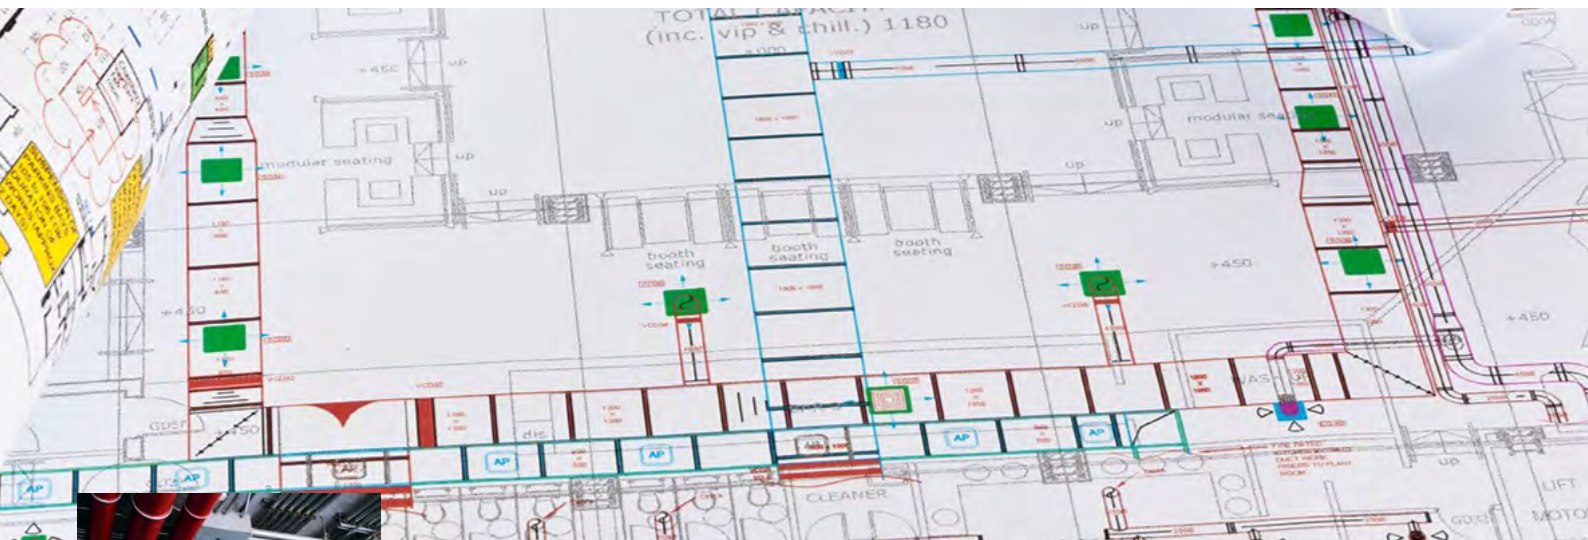

Our Values

We believe in maintaining the highest standard of **professionalism, integrity, creativity, positive attitude, delivery that meets and surpass expectations** while offering **prompt and lasting** solutions that stand the test of time.

Renovation

Space Concepts changes to an existing building from the renovation, remodeling, or renewal of a structure, including partial demolition and reconfiguration or replacement of interior partitions. Most renovation projects restore spaces to a good state of repair.

MEP

MEP stands for mechanical, electrical and plumbing engineering. These three technical fields cover the systems that make buildings habitable for humans. MEP installations are normally designed together, due to the high degree of interaction between them.

Building Construction

We also pride ourselves of vast experience in the building industry where we have constructed both high-rise and low-rise residential buildings, commercial buildings and also institutional buildings.
